

TECHNICAL OVERVIEW

ŠKODA's first
**ALL-ELECTRIC
PRODUCTION
VEHICLE**

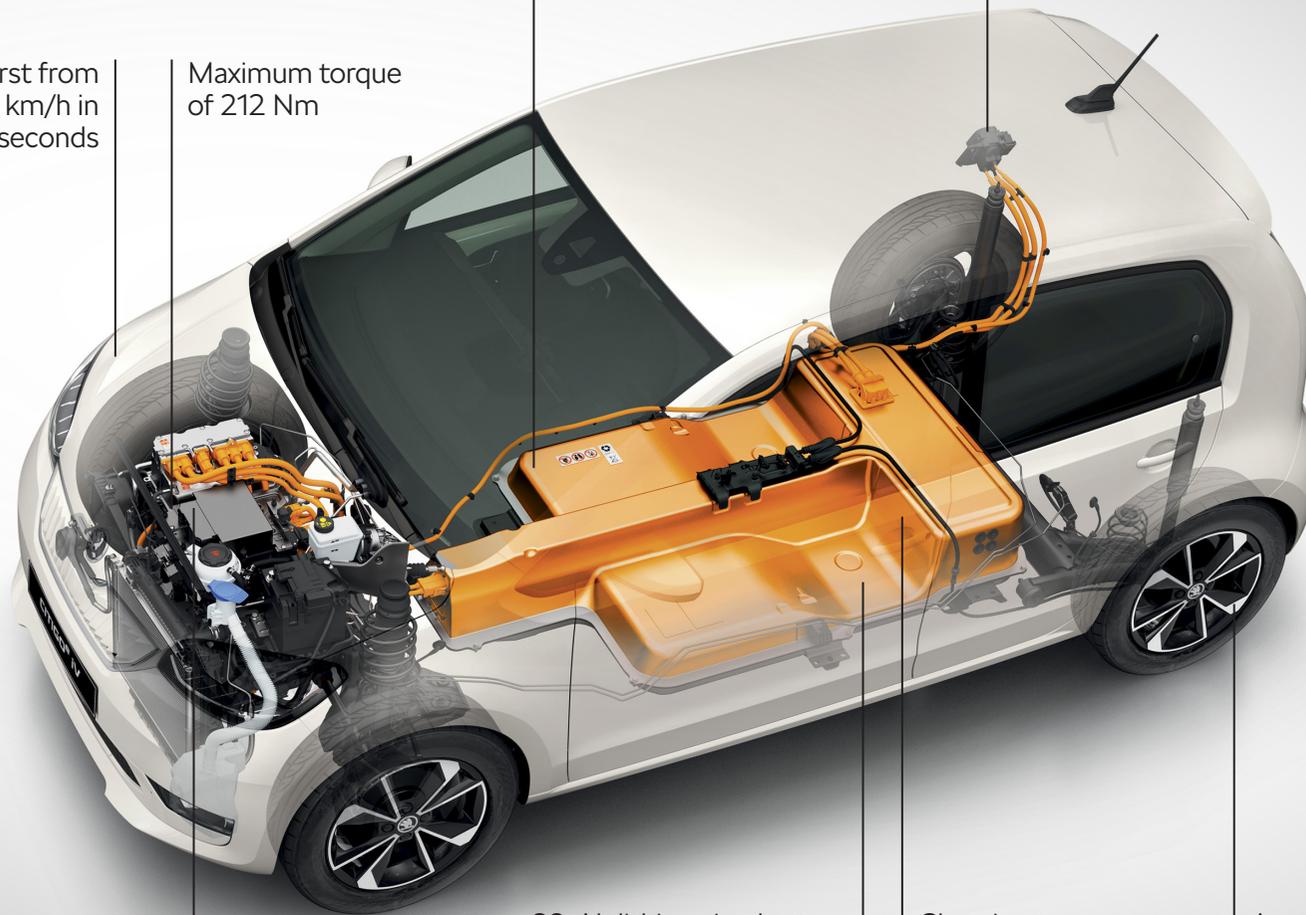

ŠKODA
CITIGO^e iV

Short burst from
60 to 100 km/h in
7.3 seconds

Maximum torque
of 212 Nm

Range of 260 km
in everyday driving
situations*

Can be charged using a standard
plug socket, a wall box or CCS
(Combined Charging System)

Electric motor with
a power output of 61 kW

60-Ah lithium-ion battery
in the car floor with
a capacity of 36.8 kWh

Charging to
80 per cent
in 1 hour

Acceleration from
0 to 100 km/h
in 12.3 seconds
