

Let's explore

Highlights of Škoda's future

- ▶ We are excited to be part of the transformation towards CO₂-neutral mobility.
- ▶ We'll offer products that cater to our customers' various needs.
- ▶ Never before has our portfolio been so diverse with BEVs, PHEVs and highly efficient ICE models.
- ▶ ICE highlights premiering this year: new generations of the Kodiaq & Superb. We will also refresh the Kamiq and Scala.
- ▶ In the coming years, we plan to introduce six new all-electric models in the small, compact and large segments, making electric mobility more accessible than ever before.
- ▶ This includes the estate segment, where Škoda is the market leader in Europe today.
- ▶ We are going to introduce the next generation of our first electric SUV family – the successful Enyaq will receive a design refresh.
