

The all-new Škoda Kodiaq

History of Škoda SUV models

Enyaq 2020

Škoda's first production model built on the Volkswagen Group's Modular electric drive matrix (MEB) for all-electric cars

Kodiaq facelift 2021

The Kodiaq RS was the first SUV model in Škoda's sporty RS range. First introduced to the market in 2018, its 2.0 TSI petrol engine currently delivers 180 kW

Karoq facelift 2022

Upgrade for the successful model with a more refined design language, sustainable materials, new technologies and a choice of efficient latest-generation EVO engines

Enyaq Coupé 2022

Škoda's first coupé model in more than 30 years, expanding the all-electric Enyaq family

The all-new Škoda Kodiaq 2023

The Kodiaq is also available as a plug-in hybrid for the first time
