

# Updated Škoda Octavia

## Highlights and facts

- ▶ Exterior with visual fine-tuning and new second-generation LED Matrix beam headlights
- ▶ Free-standing central 10" Digital Display as standard in combination with a 10" Virtual Cockpit; optional 13" display available, a first for the Octavia
- ▶ AI-based chatbot ChatGPT will later be available as standard
- ▶ Interior with additional sustainable materials, including sustainably treated leather
- ▶ New Attention and Drowsiness Assist assesses driver behaviour even more precisely, for increased safety
- ▶ Intelligent Park Assist and Remote Park Assist (to become available later) for added convenience
- ▶ Four petrol and two diesel engines; two mild-hybrid options for even more efficiency
- ▶ The modern Octavia generations have been bestsellers since 1996. The Combi has been Europe's most popular estate car since 2016, offering families a unique amount of space
- ▶ The 4<sup>th</sup>-generation update includes a wide range of new trim levels as well as RS and Sportline versions
